" Electric Company, 532
Ancient ideas of the telegraph, 450
Anderson, Wm., address to the Mechanical Science Section of British Association, 322
Annual excursions, 127, 181
Another death, 450
" exhibition, 357, 346
" Richmond in the field, 41
Anticipating the Weston armature patent, 356
Application of Siemens's five-lead system, 509
Appointment, 672
Approaching end of electrocution, 291
Arc lamps v. gas, 698
Arc light carbons, 118
Arc and glow lamp lighting, 553
Aristocratic technical advisers, 159
Army telegraph system, 423
Arrangement of the Prony brake intended for the exact valuation of motive couples, 688
Arrest of growth in cancer by the interrupted voltaic current, by J. Inglis Parsons, 662
As others see us, 559
Aspinall's enamels, 359
Atkins's universal shade carrier, 529
Attributed to the electric light, 211
Automatic reading lamp, New, 14
" governing of engines, 466
Awards at the Paris Exhibition, 394

BAD gas lighting, 478
Baker, Chas., & Co.'s advertisement, 126
Bakery lighting, 478
Barking Road electric tramway, 13
Batteries v. dynamos, 647
Bateman, A. H., & Co., East Greenwich, 159
Bay's cells, 128
Belfast telegraphists, 269
Belgian Exhibition in London, 1890, 502
Bell's, Graham, wonderful house boat, 70
" Dr. Louis, on present state of traction by storage batteries, 455
Berlin electric light cables, 11
Between two stools, 543
Birmingham Electrical Exhibition (see Electrical)
" electric tramcars, 243
Blavier method for localising faults, 550
Blowing hot and cold with the same breath, 159
Board of Trade rules for overhead wires, 247
Books received, 181, 269
Borough Engineer on electricity, 559
Boston West End Street railways, 483
Borough engineer on electric lighting, 32
Bottone on the electrician's slide rule, 268
Bracken, W. M., on electric traction by storage batteries, 248
Bradford Corporation Electricity Supply, 350
" installation, 419, 448
" electric lighting scheme, 267, 721
Brewery lighting at Tadcaster, 101
Bright, The late Sir Charles, 70
Burton-on-Trent, 557
" " refuses consent, 557

BRITISH ASSOCIATION—
Address to the Mechanical Science Section, by Wm. Anderson, 322
Design of transformers, by Jas. Swinburne, 314
Distribution of electricity in Chelsea, with accumulators as the main source of supply, by Major-Gen. Webber, 382
On the E.M.F. produced by an abrupt variation of temperature at the point of contact of two portions of the same metal, by Hy. Stroud, M.A., 319
Hysteresis in the relation of strain to stress, by Prof. Ewing, 320
Instruments used in the recent magnetic survey of France, by Prof. Rucker, 320
Manufacture of the alloys of alluminium in the electric furnace, by J. H. Dagger, 355
New form of current weigher, by Prof. Blyth, 428
" thermometric scale, by G. Forbes and Wm. H. Preece, 540
Passage of electricity through gases, by A. Schuster, 354
Precautions to be adopted where a supply of electricity is furnished by means of transformers, by K. Hedges, 321
Purification of sewage and contaminated water by electrolysis, by Wm. Webster, 424
Relative effects of steady and alternate currents on different conductors, by W. H. Preece, 352
Report of the committee on certain molecular phenomena connected with the magnetisation of iron, 391
Series electrical action, by E. Manville, 351
Telephonic communication between London and Paris, by W. H. Preece, 318
Time-lag in the magnetisation of iron, by J. A. Ewing, 536

Brooks system of underground electrical conductors, 331
Brown, Harold P., and his critics, 99
Brush converter system of distribution, 150
" electric hoist, 393
Brussels electric tramway, 197
Building Act and electric lighting, 394
Burglary at Woodhouse and Rawson, 474

CABLE—
Antilles Company, 419
communication with the Cape interrupted, 41
Guadeloupe-Martinique, 531
Completion of, at Stockholm, 270
Breakdown of, 646
new, 695
" Atlantic, 420

CABLE—*continued.*
New Canadian, 555
" to the Argentine Republic, 419
" submarine, 99
at Rye Station, America, 588
reported split, 674
ship appointment, 555
Some of the early history of telegraph cable manufacture, 677
Pacific, 214
" Admiralty survey, 154
Proposed submarine, 13
" New Zealand, 244
Quick, service, 420
Submarine enterprise, 242
" shares, 294
ships, 532
telegraphy, 89
